System Performance Test Report

System Information:

Operating System: macOS

Machine Architecture: arm64

Processor: Apple M3 Pro

CPU Cores: 11

Total Memory (RAM): 18.00 GB

Test Results:

CPU Test: Time: 1.0067298412322998 sec, Score: 99.33151467686086

RAM Test: Time: 0.8322827816009521 sec, Score: 120.15147040245533

Disk Test: Time: 0.10349011421203613 sec, Score: 966.2758685831054

Recommendations:

Upgrade your CPU if CPU score is low.

Consider upgrading RAM if RAM score is low.

Optimize storage performance if Disk score is low.
